

REGIONAL HOSPICE

2024-2025

As a nonprofit organization, your ongoing support enables us to fulfill our mission to provide heart-centered hospice care to our patients and their loved ones in a sacred, mindful and loving way. This includes covering approximately \$1.5MM of end-of-life care costs for patients of all ages that are not reimbursed by insurance providers as well as the care we offer to those who cannot afford it.

TOP RANKED HOSPICE

We are consistently ranked as exceptional for Medicare-related surveys for Quality. For caregiver experience, including communication, respectful treatment, emotional & spiritual support, help with pain & symptoms and timely response, we are consistently ranked above national and state averages.
